Colour Coded Legend:

Red – entities

Blue – usecases

Green – controllers

Black – misc.

relevant CRC cards for skeleton walkthrough
provided below

basicUser

Parent

Child

- getID
- getUsername
- getPassword
- loginDetails (hashmap for setters)
- getEmail
- setEmail
- getPhoneNumber
- setPhoneNumber
- setTypeOfClass
(economy/business/first etc.)
- getTypeOfClass
(economy/business/first etc.)

Note: boolean required
to access remaining methods

- renewMembership
- rateApp
- favouriteFlights
- favouriteAirports
- setColorScheme
- adjustAutoLogout
- setHome
- changeSettings
